Description

ISCS_V3.0.3
/cfg/alalmset.ini

The screenshot displays the ISCS alarm management interface. It features a table of alarm records with columns for description, system, priority, status, confirmation status, confirmation time, and operator. A configuration window is open, showing options for alarm levels (Level 1, 2, 3, 4) and various settings like grid color and fixed colors. A list of system parameters is visible on the right side of the interface.
