

QT - Bug #2241

Debian10.12-QT -ehgdata

06/28/2022 02:32 PM - yj sun

Status:	Resolved	Start date:	06/28/2022
Priority:	Normal	Due date:	
Assignee:	yj sun	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour

Description

The screenshot shows a software window titled "实时数据" (Real-time Data). On the left is a navigation menu with items: 厂站参数, 通道参数, 链路参数, 实时数据, AI, DI, KWH, 通道原码, 链路帧原码, and 事项显示. The main area contains a SQL editor with the following text:

```
update digital set Value=1  
where  
PointCode="HDR_FAS_MS2"
```

Below the editor, a message box displays "修改成功!" (Modification successful!). The window's toolbar includes icons for search, code, key, calendar, and a menu, with buttons for "查询", "快捷", "登录", "历史表格", "实时参数", "实时数据", and "实时操作".

This screenshot shows the same software window "实时数据" with the same navigation menu. The SQL editor is now empty. The toolbar and window title remain the same.
