<b>Target version:</b>		<b>Spent time:</b>	0.00 hour

### Description

1. a.svg “/ / / ” ID “/ / / / / aaaa” ID qEhgraph “ ” “a.svg”,

The screenshot shows the qEhgraph software interface. On the left is a symbol library with categories like '一般图元', '复合图元', '电力图元', '环控图元', '消防图元', '门禁、屏蔽门图元', and '通信图元'. Two symbols are highlighted: 'aaaa' (a green square with 'lala') and '通用' (a purple diamond). A red arrow points from 'aaaa' to the '属性设置' (Property Settings) dialog box. A yellow arrow points from '通用' to the same dialog box. The dialog box has tabs for '点对象设置' and '基本属性'. Under '基本属性', there are fields for '大类' (探测器) and '小类' (aaaa(ID:0)), and checkboxes for '锁定纵横', '左右反转', and '上下反转'. There are also sections for '关联数据项', '设备链接', '动画图元', '控制画面', and '闪烁设置'. Buttons for '取消' and '确定' are at the bottom.

“aaaa”和“通用”分属于不同图元库中同一设备种类下不同描述的图元

合并图元库后两个图元同时显示在当前图元库，但实际绘图时，“通用”图元和“aaaa”样式一致；且“自定义图元库”界面支持为“通用”图元编辑图元状态，只是无法用于绘图

2. ID ( )

The screenshot shows the qEhgraph software interface. On the left is a symbol library with categories like '一般图元', '复合图元', '电力图元', '环控图元', '消防图元', '门禁、屏蔽门图元', and '通信图元'. A symbol '通用' is highlighted. A red box highlights the '当前图元库' (Current Symbol Library) section, showing 'lala' and 'a.svg'. A red arrow points from '通用' to the '删除自定义图元' (Delete Custom Symbol) dialog box. The dialog box has a '画面区域' (Image Area) and a '设置' (Settings) section. The '设置' section has dropdowns for '抽层种类' (消防图元), '设备种类' (探测器), and '类型描述' (通用). There are also fields for '描述重命名', '添加状态', and '删除状态'. A '已有状态' (Existing States) section shows a state with value '0' and a purple diamond symbol. Buttons for '预览', '修改背景色', '添加', and '删除' are at the bottom.

两个图元库合并后，图元库中显示的样式是a.svg的，但绘图时是合并前的；
